Digital Signage			

PROFESSIONAL EXPERIENCE

System Administrator

Inspace Technologies Private Limited

Client: ReNew Photovoltaics Private Limited

May 2024 – Present

Manage and maintain IT infrastructure including servers, networks, desktops, laptops, printers, and business applications.

Administer user accounts, permissions, access controls, and security policies using Active Directory.

Manage Microsoft 365 Admin Center including user administration, license assignment, security settings, and support configuration.

Install, configure, troubleshoot, and maintain hardware, software, operating systems, and enterprise applications.

Monitor system performance to ensure high availability, reliability, and smooth IT operations.

Manage network configurations, firewall settings, LAN connectivity, Wi-Fi issues, and related troubleshooting.

Perform system updates, patch management, antivirus monitoring, backup support, and routine preventive maintenance.

Manage Print Server environments including printer deployment, configuration, and troubleshooting.

Handle OS Deployment Server using Windows Deployment Services / MDT for automated OS installation and system provisioning.

Coordinate with vendors for procurement, maintenance, escalation, and support of IT equipment and services.

KEY ACHIEVEMENTS

- ★ Developed and deployed a fully automated Employee Management System approval workflow using Microsoft Teams, SharePoint Online, and Power Automate — reducing manual effort and improving approval turnaround time.
- ★ Built and configured customized Windows 11 Kiosk systems for secure access to internal portals and business applications.
- ★ Configured and maintained LG webOS and Sony signage TVs with centralized signage server for flyers, announcements, training videos, and awareness content across multiple displays.
